Supplemental Figure 4

(A) Representative figure demonstrating the identification of tumor-enriched clonotypes, per subject. (B) Cumulative abundances in blood and tumor compartments of tumor clones per subject. The area of each point is scaled to the number of TCR reads within the tumor.

Supplemental Figure 4: (A) Representative figure demonstrating the identification of tumor-enriched clonotypes, per subject. (B) Cumulative abundances in blood and tumor compartments of tumor clones per subject. The area of each point is scaled to the number of TCR reads within the tumor.
