Correction: Adaptive single-KIR\textsuperscript{+}NKG2C\textsuperscript{+} NK cells expanded from select superdonors show potent missing-self reactivity and efficiently control HLA-mismatched acute myeloid leukemia

This article has been updated since it was first published online. The paragraph under the heading ‘ADAPT-NK cell expansion protocol’ has been updated to include the sentence ‘10% human ab serum (TCS Biosciences or Access Biologicals), 2mM L-glutamine (Cytiva-FisherScientific)’.
