Correction: Method for estimation of apoptotic cell fraction of cytotherapy using in vivo fluorine-19 magnetic resonance: pilot study in a patient with head and neck carcinoma receiving tumor-infiltrating lymphocytes labeled with Perfluorocarbon Nanoemulsion

In the abstract, caption of figure 1 and the first paragraph of the discussion, the number of T cells was incorrectly listed as 70x10^{10}. This has now been corrected to 7x10^{10}.
