Supplementary Figure 1

**A**

Supplementary Figure 1A shows the levels of various cytokines: IL-12p40 (pg/mL), IL-10 (pg/mL), TNF-α (pg/mL), and IL-6 (pg/mL) measured in different groups.

**B**

Supplementary Figure 1B displays microscopic images of tissues, possibly illustrating the effects of different treatments or conditions.

**C**

Supplementary Figure 1C provides a quantitative analysis of the cytokine levels, with a focus on IL-12p40, IL-10, TNF-α, and IL-6, for the same groups.

**D**

Supplementary Figure 1D includes additional microscopic images, possibly showing cellular responses or morphological changes under different conditions.
