Guidelines for Authors and Reviewers

Full instructions are available online at <https://jitc.bmj.com/pages/about/>. Articles must be submitted electronically at <http://mc.manuscriptcentral.com/jitc>. Authors retain copyright but are required to grant the Journal for Immunotherapy of Cancer an exclusive licence to publish.

The Journal for Immunotherapy of Cancer (JITC) is the open access, peer reviewed journal that publishes on all aspects of tumor immunology and cancer immunotherapy, aiming to enrich communication and advance scientific understanding in this rapidly evolving field. Topics of interest range across the basic science-translational-clinical spectrum and include tumor-host interactions, the tumor microenvironment, animal models, predictive and prognostic immune biomarkers, novel pharmaceutical and cellular therapies, vaccines, combination immune-based therapies, and immune-related toxicity.

As a way to say thank you to the dedicated Society for Immunotherapy of Cancer (SITC) members who tirelessly work to advance the science and improve the lives of patients with cancer, SITC will provide members with a 50% discount on article processing charges for all member-authored 2020 publications.

Editorial Board

Basic Tumor Immunology Section Editor

Cornelis J. M. Melief (the Netherlands)

Deputy Editor

Sjoerd H. van der Burg (the Netherlands)

Associate Editors

Scott I. Abrams (USA)

Timothy NJ Bullock (USA)

Gennaro Ciliberto (Italy)
