

Summary proportions (ORR) leaving out each cohort

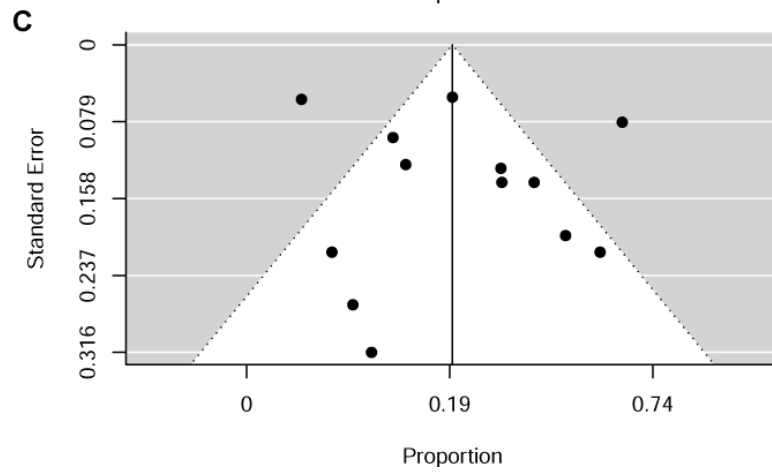

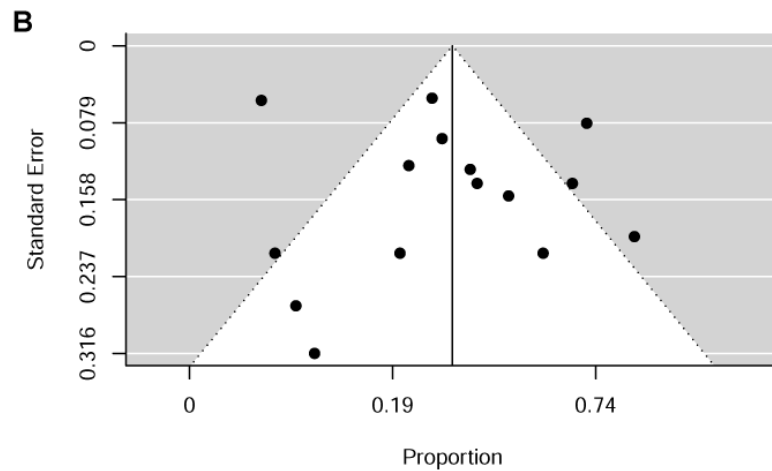

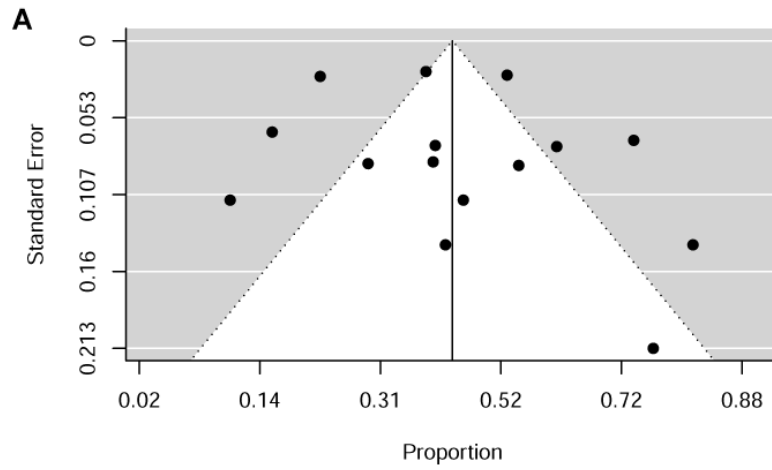

Summary proportions (TFS) leaving out each cohort

Summary proportions (TFS) leaving out each cohort

**Supplementary Figure S1** Forest plots depicting the results of leave-one-out sensitivity analysis, in which the summary proportion ((A) ORR; (B) TFS rate at 6 months; (C) TFS rate at 12 months) was estimated after iterative removal of each indicated study cohort.

**Supplementary Figure S2** Funnel plots with pseudo 95% confidence limits for (A) ORR; (B) TFS rate at 6 months; (C) TFS rate at 12 months.
