

Supplemental Figure 2. BRCA1 mRNA and protein levels in naïve and activated CD8<sup>+</sup> T cells

**Supplemental Figure 2. BRCA1 mRNA and protein levels in naïve and activated CD8<sup>+</sup> T cells.** (A) *Brca1* quantification through RNA-sequencing in naïve and activated CD8<sup>+</sup> mouse T cells; data were extracted from PMID: 30487606<sup>11</sup>. (B) BRCA1 western blot in WT and TBKO CD8<sup>+</sup> cells before and after *in vitro* activation. (C) WT and TBKO mice survival curves after E0771 tumor challenge.
