

Supplementary figure 7

Supplementary Figure 7. Expression of inhibitory receptors by CD4+ T cells in cSCC. Percentages of CD4+ T cells from blood, normal skin (NS) and cSCC expressing Tim3 (upper left, n=13 tumors), LAG3 (upper centre, n=14 tumors), BTLA (upper right, n=11 tumors), CD160 (lower left, n=13 tumors) and CD244 (lower right, n=12 tumors). Horizontal bars = means.
