

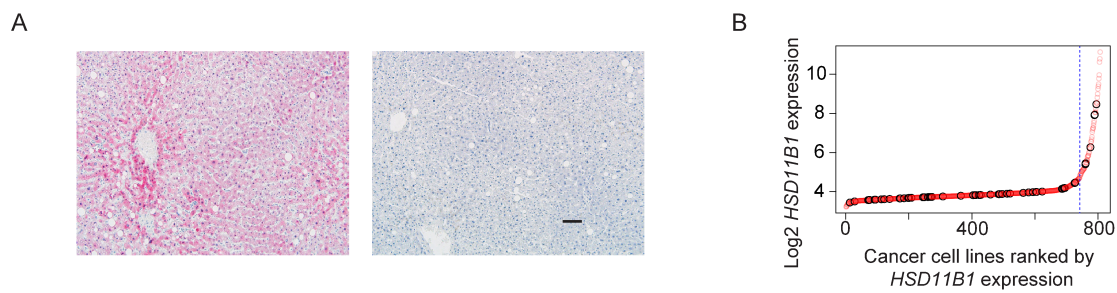

Figure S2

**Supplementary Figure 2. HSD11B1 expression in the liver and human melanoma cell lines.**

(A) Immunohistochemistry of HSD11B1 in human liver. Scale bar = 50 μ m.

(B) HSD11B1 expression (log2) in 807 cancer cell lines of the CCLE by Affymetrix microarray. Melanoma cell lines (n=54) highlighted by black circles.
